Form Field Validations

	Page	FormID.FieldID	Expected Values	Test ID	Test Value	Pass/Fail
	View Playlist	addToSpotify.button	return true, playlist added to account once	add.1	single click	pass
	View Playlist	addToSpotify.button	return true, playlist added to account once	add.2	double click	fail, sends off two requests and should only send off one
	Create Collaborative Playlist	collabPlaylist.Textarea	Playlist shared with appropriate number of phone numbers added to DB or none if no phone numbers entered	share.1	add 2 numbers	pass
	Create Collaborative Playlist	collabPlaylist.Textarea	Playlist shared with appropriate number of phone numbers added to DB or none if no phone numbers entered	share.2	add 0 numbers	A "null" value is stored in the userNumbers collection instead of not storing anything

Data Validation

	Collection	Field	Read/Write	Data Source	Contraints	Test Value	TestID	Pass/Fail
	userNumbers	number	w	collabPlaylist.Textarea	String < 255	null	data.1	fail, should not store any data. Stores "null" instead
	userNumbers	number	w	collabPlaylist.Textarea	String < 255	(508) 555-5555	data.2	Pass, stores all data properly

UI Validation

	Page	UI Element	Expected Function	Test ID	Pass/Fail
	Dashboard	Action Button (Gym, Sleep, etc)	On click, open a modal with the playlist details	ui.1	pass
	Dashboard	Collaborative Playlist button	on click, open a modal with the collaborative playlist form	ui.2	pass
	Dashboard	Login	On click, should authenticate a user with Spotify, get an access token, and redirect them to the dashboard	ui.3	fail, sometimes throws an internal server error (possible due to spotify username or first/last name not being defined in an account)

Remediation

	Bug ID	TestID	Description	Severity (1-5)	Reason	Assigned	Completed
	1	add.2	When adding playlist to spotify, if the button is double clicked a duplicate request will be sent	2	Duplicate request does not cause any problems with the playlist, but is still an extra unnecessary api call	lang	In progress
	2	share.2	When sharing a playlist and 0 phone numbers input, recent people includes a 'null' value	2	Null value can be ignored, but may confuse users	liam	December 4th, 2016
	3	data.1	When a null value is passed into database of recent numbers, it is stored instead of discarded	1	Does not affect program performance, but is still an undesired result	liam	December 4th, 2016

	Bug ID	TestID	Description	Severity (1-5)	Reason	Assigned	Completed
	4	ui.3	Occasional 500 internal server error when attempting to login via spotify	3	Not common, but prevents users from using our service when it occurs	robin	In progress
	4	ui.3	Occasional 500 internal server error when attempting to login via spotify	3	Not common, but prevents users from using our service when it occurs	robin	In progress
